

ROLAND DZOAGBE

IT Infrastructure & Operations Support Manager

+33 7 82 88 46 46 | rolanddzoagbe@gmail.com | linkedin.com/in/r-dz | Bondy, France (Paris region)

PROFILE

Senior IT Infrastructure and Operations Support leader with 10+ years of IT experience, including 7+ years managing mission-critical, multi-site environments for international organizations. Strong expertise across Microsoft 365, Azure/Entra ID, Intune/Autopilot, Microsoft Defender, Windows Server, endpoint management, ITSM, SLA/KPI management, BCP/DR and 24/7 service delivery. Delivered Paris 2024 Olympic and Paralympic IT operations, supported up to 600+ users, reduced MTTR by 80%, accelerated provisioning by 30%, and led infrastructure, support and security operations with a business-focused, service-oriented mindset. Bilingual English/French.

CORE EXPERTISE

- Infrastructure & workplace: Microsoft 365, Azure, Entra ID/Azure AD, Intune, Autopilot, SCCM, Windows Server, VMware, Citrix, Cisco, TCP/IP, DNS and VPN.
- Operations support: 24/7 IT operations, N1-N3 support coordination, SLA/KPI management, incident escalation, ITIL processes, ServiceNow, Jira and Zendesk.
- Security & governance: Microsoft Defender, MFA, Conditional Access, Okta, Google Admin, GDPR, IAM, audit readiness, incident response, BCP/DR and DLP awareness.
- Leadership & delivery: stakeholder liaison, vendor coordination, procurement, budget follow-up, change management, documentation, PowerShell automation and team leadership.

SELECTED IMPACT

- Led IT operations and operational application workflows across Olympic and Paralympic multi-site environments, including ticketing, CRM, access control and reporting.
- Reduced MTTR by 80% and accelerated provisioning by 30% through Intune/Autopilot, Defender, MFA, structured escalation and PowerShell automation.
- Maintained 24/7 readiness across mission-critical international environments with escalation management, BCP/DR procedures and vendor coordination.
- Delivered 99%+ SLA compliance in a regulated international environment and improved network uptime by 25% through Cisco/network service improvements.

PROFESSIONAL EXPERIENCE

IT Infrastructure & Applications Manager | Host Broadcast Services (HBS) | Apr 2025 - Dec 2025

International multi-site broadcast operations | 600+ users | 24/7 mission-critical environment

- Owned infrastructure, workplace, support and business application services across international broadcast sites, ensuring operational readiness, reliability and continuous improvement for 600+ users.
- Implemented Microsoft Defender for Endpoint, MFA and Intune/Autopilot, reducing device provisioning time by 30% and MTTR by 80%.
- Led network modernization, Windows Server upgrades, executive reporting dashboards and structured change management while maintaining 24/7 BCP/DR readiness.
- Automated recurring IT operations with PowerShell, improving SLA compliance, support consistency and team productivity.

IT Manager - Olympic & Paralympic Games | The iLUKA Collective | Mar 2024 - Mar 2025

Paris 2024 multi-site events | 250+ users | 5 international sites | mission-critical delivery

- Led end-to-end IT operations for Paris 2024 Olympic and Paralympic Games, covering user support, ticketing, CRM, access control and reporting workflows.
- Owned Eventim and multi-channel ticketing operations across web, kiosk, box office and partner channels, including configuration, access management and user training.
- Coordinated vendors, procurement, budget tracking, change management and 24/7 service continuity across 5 international sites.
- Strengthened GDPR-aligned access governance, audit traceability and data quality across operational systems.

Corporate IT Manager | AKUR8 (InsurTech SaaS) | May 2023 - Oct 2023

High-growth SaaS environment | international users | IAM and compliance ownership

- Managed IT operations, SaaS administration and IAM services using Okta, Google Admin and Microsoft tools.
- Led software, network and security improvements under ITIL change-management practices, supporting GDPR compliance, procurement and vendor relationships.

IT Manager | Zenly (Snapchat Group) | Jul 2022 - Mar 2023

International SaaS | 180+ users | Windows, macOS and Linux estate

- Managed infrastructure, SaaS applications and endpoint services for 180+ international users across Windows, macOS and Linux environments.
- Administered Okta and Google Admin, reduced licensing costs by 15% through access audits, and improved documentation and disaster-recovery readiness.

Technical Support Analyst | Dechert LLP | Jun 2021 - Jul 2022

International law firm | Paris, Luxembourg, Brussels | GDPR-regulated environment

- Delivered multi-country IT support through ServiceNow while maintaining 99%+ SLA compliance in a regulated professional-services environment.
- Administered Active Directory, Windows Server, Citrix Workspace and mobile device management platforms including AirWatch and Azure MDM.

IT Technician / IT Supervisor | Artemys Paris - DBV Technologies, OPCO Santé | Feb 2018 - Feb 2021

Managed services and client environments | 200+ users

- Provided Tier 2/3 support, Microsoft 365 and Azure administration, Windows Server migrations and onboarding/offboarding process improvement.
- Configured Cisco switches and network services, improving uptime by 25% while supporting documentation and local IT operations.

L1/L2 Support Technician | Cabinet Alain Bensoussan | Feb 2017 - Mar 2018

Law firm | approximately 200 users

- Delivered N1/N2 support, Active Directory administration, hardware/software deployment and IT estate management for a legal-services environment.
