

ROLAND DZOAGBE

Senior IT Infrastructure & Cyber Operations Manager

Bondy, France • +33 7 82 88 46 46 • rolanddzoagbe@gmail.com
[linkedin.com/in/r-dz](https://www.linkedin.com/in/r-dz)

PROFESSIONAL SUMMARY

Senior IT Infrastructure & Operations Manager with 10+ years of experience securing and operating complex, multi-site environments in mission-critical and regulated sectors. Proven track record of deploying resilient infrastructure, reducing cyber risk, and leading high-performing cross-functional teams (N1–N3) serving 600+ users. Experienced in aligning technology strategy with business objectives, managing vendor ecosystems, and ensuring operational continuity in international environments. Seeking to bring deep expertise in endpoint protection, identity governance, Microsoft 365/Azure administration, and IT service management to a senior IT leadership role within the banking or automotive industry.

KEY ACHIEVEMENTS

80% MTTR Reduction

Across multi-site broadcast operations via Tier 1–Tier 3 team restructuring

600+ Users Supported

End-to-end IT operations across international mission-critical sites

Enterprise Security Deployment

Microsoft Defender for Endpoint + MFA at scale across multi-site environments

Cross-Functional Team Leadership

Led 8-person engineering teams (N1–N3) under 24/7 SLA in high-pressure contexts

CORE COMPETENCIES

Security & Compliance

Endpoint Protection (Defender)
MFA & Identity Governance
Incident Response & Escalation
Compliance & Audit Readiness
Risk Reduction & Continuity

Cloud & Infrastructure

Microsoft 365 & Azure AD
Intune / SCCM / Autopilot
Okta, JAMF, Google Admin
Cisco Networking / TCP/IP / DNS
Windows, macOS, Linux

Leadership & Operations

Team Management (N1–N3)
ITSM: ServiceNow, GLPI, Jira
Budget & Vendor Management
Stakeholder & Exec Reporting
SLA Management & Continuity

PROFESSIONAL EXPERIENCE

Infrastructure & Support Manager

Host Broadcast Services (HBS)

Apr 2025 – Dec 2025

Scope: International multi-site operations | Team: 8 engineers (N1–N3) | Users: 600+ | 24/7 mission-critical broadcast

- Led on-site IT infrastructure operations ensuring business continuity, security compliance, and alignment with executive stakeholders across international broadcast sites.
- Managed multi-site Tier 1–Tier 3 support teams, reducing Mean Time to Resolution (MTTR) by 80% and improving SLA compliance — directly comparable to banking SLA-driven environments.
- Implemented Microsoft Defender for Endpoint and multi-factor authentication (MFA) across multi-site environments, strengthening threat detection and identity protection while reducing cyber risk exposure.
- Coordinated security incidents and escalations to ensure rapid containment and service continuity across critical sites — mirroring the incident response rigor expected in regulated industries.
- Led infrastructure enhancement projects (network modernization, Autopilot deployments), increasing deployment efficiency and standardization.
- Designed performance dashboards and executive reporting to support budget optimization and data-driven decision-making.
- Partnered with site leadership and executive stakeholders to align IT operations with business objectives.

IT Manager

The iLUKA Collective (Olympic & Paralympic Games)

Mar 2024 – Mar 2025

Scope: Multi-site event operations | Users: 250+ | Multiple vendors | Mission-critical environment

- Ensured security compliance, access governance, and audit traceability in mission-critical environments — practices directly applicable to banking regulatory frameworks (DORA, NIS2).
- Coordinated vendors and service providers to ensure service continuity and uninterrupted event delivery.
- Provided support for ticketing platforms (Eventim): configuration, user training, access control, and reporting workflows.
- Oversaw IT budget planning and procurement, ensuring cost control and alignment with organizational growth.

Corporate IT Manager

AKUR8 (Insurtech SaaS)

May 2023 – Oct 2023

Scope: SaaS environment | International users | IAM-focused operations | High-growth company

- Led IT operations in a rapidly scaling SaaS environment, aligning infrastructure with business priorities — relevant experience for digital-first banking and automotive platforms.
- Administered IAM systems (Okta, Google Admin) and oversaw IT budget and procurement.
- Led escalation management and coordinated software and network upgrades to improve operational efficiency.

IT Manager

Zenly (Snapchat Group)

Jul 2022 – Mar 2023

Scope: International SaaS environment | Users: 180+ | End-to-end IT operations | Fast-paced scale-up

- Managed IT infrastructure and end-user support for 180+ international users across multiple platforms.
- Administered SaaS and access management (Okta, Google Admin), optimizing IT resources and costs.
- Improved documentation and processes, strengthening collaboration with external partners.

Technical Support Analyst

Dechert LLP (International Law Firm)

Jun 2021 – Jul 2022

- Provided multi-country IT support (Paris, Luxembourg, Brussels) via ServiceNow in a highly regulated environment.
- Administered Active Directory and Citrix Workspace environments — core technologies in banking infrastructure.
- Managed the mobile device fleet (AirWatch, Azure MDM) and configured Cisco meeting rooms.

Migration Technician / IT Supervisor

Artemys Paris

Apr 2020 – Feb 2021

- Provided Tier 2/Tier 3 support for 200+ users, optimizing onboarding and offboarding processes.
- Administered Microsoft 365, Azure, and Google Workspace environments.
- Configured and maintained Cisco switches, improving network reliability.

L1/L2 Support Technician

Cabinet Alain Bensousan

Feb 2019 – Apr 2020

- Managed and maintained IT estate (workstations, software, network) for ~200 users.
- Administered user accounts and access via Active Directory, deployed IT equipment and managed mobile fleet.

IT Support & Systems Administration (Freelance)

- Delivered hardware, systems, and end-user support services, building strong foundational expertise in infrastructure and customer support.
